Going Beyond Language Learning

Adrian Tennant

Integrating Global Issues in the Creative English Language Classroom

This publication provides innovative ideas for teaching creatively while raising awareness of the United Nations Sustainable Development Goals.
Going Beyond Language Learning

As educators we have a responsibility to empower our learners, creating people capable of critical thinking, problem-solving and becoming global citizens in an ever-changing world.
Going Beyond Language Learning

The book has 22 chapters dealing with all the SDGs.
My chapter deals with:

- Affordable and Clean Energy
- Responsible Consumption and Production
- Climate Action

and includes 5 practical activities
Going Beyond Language Learning

Activity 4: Rubbish
Which of these items is rubbish? Why?
1. What things do you have in your house that require energy?

2. Which of the things that you have in your house do you think you couldn’t live without? Why?

3. What would happen if you only had 5 per cent of the energy you use at the moment?
